

Irish Architecture Foundation

Championing Architecture since 2005

Role: Development Manager

Contract: 1 year fixed-term, with a view to renewal

Salary: €36,000-€45,000, commensurate with experience

Organisational Background

Established in 2005, the Irish Architecture Foundation (IAF) is an independent organisation dedicated to the promotion of architecture as culture. We encourage people to engage with their built environment, to inspire new ways of thinking about architecture.

We have an established network and track record in delivering major projects, primarily aimed at developing audiences for architecture in Ireland, while also raising the profile of Irish architecture abroad. Our programme of exhibitions, talks, film screenings, symposia, competitions, publications, school and community workshops, is intended to generate dialogue as well as critically engage a diverse public.

In 2020, despite the current climate, we managed to raise significant sponsorship from the Corporate Sector for Open House Dublin and high-level corporate friends via the IAF Friends Programme. We need to maintain, steward and grow this base. This role is central to the development of the IAF and there is potential to attract greater support for our organisation through a strategic fundraising plan that connects to programmatic and institutional marketing.

Job Description and Core Competencies

IAF is seeking to recruit a dynamic, experienced, and highly motivated professional to fulfil a new full-time role of **Development Manager**.

The successful candidate will play a significant role in the continued development and delivery of the IAF's development and fundraising initiatives, building on the IAF's successes to-date. They will also contribute to year-round programmatic and institutional marketing activity in line with the on-going strategic development of the organisation.

The key focus of this role is revenue generation - through bespoke engagement initiatives (Friends' and Corporate Circle Programme etc.), excellent relationship management (Corporate Sponsorship and Partnerships) and targeted audience development (marketing campaign delivery).

The IAF has ambitious plans to grow over the next three years and central to our plan is an increase in self-generated resources. We envisage a period of intense and sustained capacity building in the next year in which the Development Manager will play a pivotal role.

The ideal candidate for this position will have demonstrable knowledge and experience of the key aspects of fundraising, corporate relationships and marketing; knowledge of, and interest in, architecture, art, design, and they will have a solid understanding of the arts, culture and not-for-profit sector within this context.

Based at the IAF's HQ 15 Bachelors Walk, Dublin 1, the contract is offered on a fixed term basis, initially, with a six-month probation period.
